

Ricky Julpiter Sipayung

Web Developer - Blogger

PERSONAL STATEMENT:

I am an active college student majoring in Computer Science at the University of Sumatera Utara. Now, I'm currently focusing on developing my skills in web programming. I also mastered some content management system and framework

SKILLS:

- Passionate about technology products and enjoy working at the cutting edge of technology.
- An interdisciplinary thinker, skilled at blending disciplines in pursuit of a mission.
- Analytical mindset, comfortable working on data-driven projects, with insight on consumer trends.
- Solid technical background - understanding of web technologies
- Comfortable working with an environment with lots of ambiguity and unknowns.
- Good communicator.
- The ability to own product development throughout the entire product lifecycle, particularly the requirement and design phases.
- Prior experience working on products utilising PHP, CSS, HTML.
